

Empower Solutions Awarded GSA IT Contract

Edison, New Jersey and Atlanta, GA (November 29, 2006) – Intelligroup announced today that its subsidiary, Empower Solutions, has been awarded the General Services Administration (GSA) Information Technology Schedule 70 contract. The GSA schedule provides government organizations with a streamlined procurement vehicle to acquire Empower Solutions services quickly and easily at discounted market rates. Empower Solutions has extensive experience working with public sector organizations including various public institutions of higher education, a plethora of large public school districts in the US, a large number of city and county governments and numerous public utility service organizations. “Federal agencies can now take advantage of Empower Solutions’ professional enterprise resource planning (ERP) integration and support services with the ease of purchasing from the IT schedule”, according to David R. Miller, Managing Director at Empower Solutions. “We bring our proven solutions, processes and methodologies to all markets we serve, both public sector and public education. We look forward to now serving the Federal market through this contracting vehicle.”

Empower Solutions’ ERP clients – including public and private sector users of SAP, Oracle, including the PeopleSoft product line, and Microsoft software – quickly and cost-effectively benefit from high quality systems integration and software implementation that support their critical business systems. Industry best practices and organizational change management typically are key business processes that are included in such services to replace outdated financial, payroll and human resources legacy systems.

About Empower Solutions

Empower Solutions, a wholly owned subsidiary of Intelligroup, is a management and technology consulting organization with a deep focus on industry expertise and quality of service. Empower assists its clients in identifying their most complex technology challenges, and in utilizing technology solutions in a way that makes sense for their business. Empower Solutions consultants possess an unmatched level of technology experience and “best practice” industry knowledge.
